

Sinclair Broadcasting's decision to force their stations to air an anti-Kerry documentary days before the election is nothing more than more propaganda that is increasingly invading our airways.

I do not like Sinclair using the public airwaves free of charge. Those airwaves belong to us and ought to serve the public interest. I am tired of large companies controlling the airwaves. We are not getting what we need for our democracy from our current airwaves. I want to see more substantive news about issues that truly matter in our world not just a bunch soundbites.

The media ownership rules need to be made stronger, not weakened. Give Americans their airwaves back and quit playing around with the rules and acting like nothing is awry. You may think Americans are not paying attention to the lax rules and changed rules but we are watching very closely.

Thank you.
